56	The senior center should be in the space that the SBVD uses for the monthly meeting. That space is under utilized. It is only used one night a week for 2 hours by the building inspector and one night or 2 a month for the commissioners meeting. The building has been neglected by the commissioners for years. There is a business tenant that occupies the remaining portion of the building that takes excellent care of the space she rents. It is a yoga and fitness business and many of the residents take classes there, many of which are seniors so it would be a good fit. There are bathrooms in the SBVD space and since the building is already owned by the beach residents it could be an easy transition.	4/20/2024 7:39 AM
